

Marlon Geovany Castro Mejia

Software Engineer

Profile

Experienced Software Developer adept in bringing forth expertise in design, development, testing, and maintenance of software systems. Equipped with a diverse and promising skill-set. Experienced with the latest cutting-edge development tools and procedures. Able to effectively self-manage during independent projects, as well as collaborate as part of a productive team.

Employment History

Front-end Developer at Savvly

July 2023 — Present

Savvly is an innovative alternative investment designed to create a windfall in the second phase of retirement.

- Worked with an agile team to provide end-to-end solutions for our clients maintaining the best practices on web development.
- I had the responsibility for testing the entire website using latest technologies and best practices for end-to-end testing.

- Daily maintenance of code, debugging issues and solving clients' problems within the website and the simulations system created.

- Created an entire simulation graph communicating with the back-end team bringing matrixes formulas from the MathLab to creating a exact simulation on the front-end for users.

Service Desk Engineer at Intersection

I manage issues throughout their life-cycle, beginning from the first point of contact until it is resolved. During this process, I need to keep our clients abreast of the progress.

Education

College Degree in Informatic Engineering, CEUTEC

January 2019 — Present

High school degree in information systems, Liceo Brassavola Nacional

February 2013 — November 2016
